Scientific Rationale

ERN network aims to improve access to high-quality healthcare for patients with hormonal disorders and to deliver improved diagnostic trajectories, treatment, quality of care and measurable outcome for patients with rare endocrine conditions.

Endo-ERN has established eight main thematic groups covering the full spectrum of congenital and acquired conditions. These are: adrenal disorders; disorders of calcium and phosphate homeostasis; disorders of sex development and maturation; genetic disorders of glucose and insulin homeostasis; genetic endocrine tumour syndromes; disorders of growth and genetic obesity syndromes; pituitary disorders; and thyroid disorders.

The aim of the meeting is to bring together Italian, European MTG coordinators and the Italian ePAG to list questions pointing towards research needs and new management avenues opened by translation of research in diagnostics and treatment of rare endocrine conditions.

Modalità d’iscrizione: il corso è gratuito con iscrizione obbligatoria attraverso la seguente mail: cristina.degan@unipd.it e riservato a n. 80 partecipanti per le seguenti figure professionali: Medico Chirurgo (tutte le discipline), Biologo.

ECM: Ai fini dell’attestazione dei crediti ECM è necessaria a presenza effettiva degli iscritti al 100% dell’intera durata dell’attività formativa, con verifica tramite firma di frequenza in entrata e in uscita, la compilazione e restituzione della scheda di valutazione/gradimento, della scheda anagrafica e del questionario ECM di apprendimento alla fine del corso.

Crediti ECM assegnati: n. 7

We thank

KYOWA KIRIN

for their unconditional support to the event
8.00 Registration of participants

8.45 Greetings & Introduction

Nella Augusta Greggio AOU Padua, (Italian National Coordinator - SIEDP)

Annamaria Colao AOU “Federico II”, Naples, Italy, (Italian National Coordinator - SIE)

Luciano Flor & Carla Scaroni, HCP Representative / EndoERN HCP Representative of Padua

Paola Facchin, Regional Registry Coordinator for Rare Diseases - Regione del Veneto, Italy

9.20 The commitment of the Italian National Institute of Health (Istituto Superiore di Sanità, ISS)

Domenica Taruscio, Director of the National Center for Rare Diseases & Co-coordinator of the WP “E-health & ICT, ISS,Rome, Italy

Role of the National Center for Rare Diseases

Primiano Iannone, Director of the National Center for Clinical Excellence, Quality and Safety of Care, ISS, Roma, Italy

Clinical practice guideline

10.00 MGT1: Adrenal. What to do on diagnosis and targeted medical therapy.

Svetlana Lajic, Karolinska University Hospital Stockholm, Sweden

10.20 MGT2: Disorders of Calcium & Phosphate homeostasis.

PTH and phosphate dependent diseases, what to do?

Lars Rejnmark, Aarhus University Hospital, Aarhus, Denmark

10.40 MGT3: Genetic disorders of glucose & insulin homeostasis.

Tailored pharmacologic treatment and modern, evidence-based care through a multidisciplinary approach

Thomas Danne, Kinderkrankenhaus auf der Bult, Hannover, Germany

11.00 Coffee Break

11.40 MGT4: Genetic endocrine tumor syndromes.

What to do regarding the optimal timing and method of treatment

Atilla Patocs Semmelweis University - Budapest, Hungary

12.00 MGT5: Growth & Genetic obesity syndromes. What to do for improving clinical, molecular diagnosis and personalised therapy.

Irene Netchine CHU Paris Est – Hôpital d’Enfants Armand-Trousseau Paris, France

Annamaria Colao AOU “Federico II”, Naples, Italy, (Italian National Coordinator - SIE)

12.40 MGT7: Sex development (DSD) & maturation (DSM).

What to do on diagnostic and targeted medical therapy.

Luca Persani IRCCS Istituto Auxologico Italiano - Milano, Italy

13.00 MGT8: Thyroid. Diagnostic strategies and treatment approaches (i.e liquid formula vs tablets)

Robin Peeters Erasmus MC - Rotterdam, The Netherlands

13.30 - 15.30 Lunch Working Groups

15.30 ePAG. Italian Endo-ERN ePAG’s representatives experience.

16.00 General Assembly of Italian Endocrine Centers

16.30 - 17.00 Closing remarks and ECM Questionnaire
